

Information Notice pursuant to Articles 12, 13 and 14 of EU Regulation 2016/679 – Customers

Pursuant to and for the purposes of the above-mentioned Regulation concerning the “protection of natural persons with regard to the processing of personal data”, Saleri Aftermarket S.p.A., with registered office in Lumezzane (BS), Via Ruca No. 406 (hereinafter the “Company”), in its capacity as Data Controller (hereinafter the “Company” or the “Controller”), is required to provide certain information regarding any personal data of natural persons, collected from the Customer, in their capacity as “Data Subjects”.

The data held by the Controller are normally collected directly from the Customer and/or from the Data Subjects and, occasionally, also from third parties. If the personal data of the Data Subject are not collected directly from them, the Controller, pursuant to Article 14, letter g) of the Regulation, informs that no automated decision-making processes are carried out, including profiling as referred to in Article 22, paragraphs 1 and 4.

The data are processed within the scope of the Controller’s ordinary activities for the following purposes:

1. purposes strictly connected with and instrumental to the contract in force between the parties and to the fulfilment of the obligations arising from the contract itself;
2. purposes related to obligations established by national or supranational laws or regulations, as well as by measures issued by national or supranational bodies or authorities. These purposes include activities required for compliance with anti-money laundering regulations, where applicable;
3. purposes related to the sending of commercial information and/or informational newsletters regarding the Company’s initiatives and products.

With regard to the above purposes, the processing of personal data will be carried out in such a way as to ensure their security and confidentiality, as well as the protection of the rights and freedoms of the Data Subjects. Processing may be performed using manual, IT, and electronic tools suitable for storing, managing, and transmitting the data. The processing methods will be strictly related to the purposes described.

Providing data for the purposes under point 1) is optional; however, refusal to provide such data would make it impossible to manage the pre-contractual and/or contractual relationship. Providing data for the purposes under point 2) is mandatory, as it is necessary to comply with legal obligations. Processing of personal data for the purposes under points 1) and 2) does not require the consent of the Data Subjects. Processing of personal data for the purpose under point 3) requires the explicit consent of the Data Subjects. Failure to provide consent will not affect the contractual relationship. Consent may be withdrawn at any time.

The processing of personal data is lawful pursuant to Article 6, paragraph 1, letters a), b), c), and f) of EU Regulation 679/2016.

Please note that if the order assigned to us necessarily involves the processing of personal data of natural persons other than the Customer (such as employees, clients, suppliers, consultants, or other third parties), it is the Customer’s responsibility to inform the Data Subjects and obtain, where required, the necessary consents for the processing of their personal data by the Controller. It is understood that the request addressed to us to perform the assignment shall constitute a presumption, pursuant to Article 2729 of the Italian Civil Code, that the Customer has fulfilled the related obligation to provide information and has obtained the necessary consent (where required) from the Data Subjects in favour of the Controller.

The Data Subjects’ personal data may be disclosed to the following categories of third parties:

- public authorities in the fulfilment of specific legal obligations or based on legitimate orders; administrative, customs, judicial, and tax authorities, in the cases and within the limits provided by law;
- the Controller's consultants and/or insurers;
- service providers and/or consultants, solely for purposes related to the management of the assignment, provided that such parties undertake to comply with all data security requirements under the Regulation;
- companies and/or professionals appointed for potential debt recovery.

The personal data collected and processed as described above may be disclosed to entities located or residing within the European Union, which are also subject to the Regulation, and also to non-EU countries, provided that, in the latter case, the transfer is deemed lawful by a decision of the Data Protection Authorities and/or through bilateral agreements ensuring the same level of protection required by the Regulation. In such cases, explicit consent for the transfer will be requested. Disclosure of data to the above categories of recipients does not require the consent of the Data Subjects.

The personal data will be accessible to personnel appointed by the Controller to carry out the assignment, as well as to the relevant support staff, authorised pursuant to Article 29 of EU Regulation 679/2016.

Duration of Processing and Data Retention

The processing described in this notice will last for the period strictly necessary to fulfil the obligations imposed on the Controller by national and/or supranational laws, as well as by the laws of the countries to which the data may be transferred. By way of example, personal data will be processed and retained for the entire duration of the contractual relationship and, thereafter, for 10 years, corresponding to the ordinary limitation period.

Rights of Data Subjects (Articles 15–22 of the Regulation)

We also inform you that Articles 15 to 22 of the Regulation grant Data Subjects specific rights. In particular, Data Subjects may obtain from the Controller, with regard to their personal data: access (Art. 15); rectification (Art. 16); erasure – right to be forgotten – (Art. 17); restriction of processing (Art. 18); notification in case of rectification, erasure, or restriction (Art. 19); data portability (Art. 20); right to object (Art. 21); and the right not to be subject to automated decision-making, including profiling (Art. 22).
